YoloCares may use your health information for the purposes of providing treatment, obtaining payment for your care, and conducting health care operations. YoloCares has established policies to guard against unnecessary use and disclosure of your health information. No mobile opt-in or text message consent (SMS consent and phone numbers) will be shared with third parties or affiliates. The following is a summary of the circumstances under which your health information may be used or disclosed:

- a. For Treatment.** Your health information may be used to coordinate care within the agency and with others involved in your care, such as your attending physician, members of YoloCares interdisciplinary team and other health care professionals who have agreed to assist in coordinating care. For example, physicians involved in your care will need information about your symptoms in order to prescribe appropriate medications. Your health care information may also be disclosed to individuals outside of the agency involved in your care including family members, clergy who you have designated, pharmacists, suppliers of medical equipment or other health care professionals that are used in order to coordinate your care.
- b. For Payment.** We may use and disclose your protected health information to other providers so they may bill and collect payment for treatment and services they provided to you. For example, your health insurer may require information regarding your health status so that the insurer will reimburse the agency. Your insurer may also require that prior approval for care be obtained with an explanation of need for YoloCares care and the services that will be provided to you.
- c. For Health Care Operations.** Your health care information may also be used and disclosed in order to conduct agency operations, facilitate the function of the agency and, as necessary, to improve the quality of care to all of the agency's patients. Health care operations include such activities as:
 1. Quality assessment and improvement activities
 2. Activities designed to improve health care or reduce health care costs
 3. Protocol development, case management and care coordination

4. Professional review and performance evaluation
5. Training programs including those in which students, trainees or practitioners in health care learn under supervision
6. Training non-health care professionals
7. Accreditation, certification, licensing or credentialing activities
8. Review and auditing, including compliance reviews, medical reviews, legal services and compliance programs
9. Business planning and development including cost management, related analysis, and formulary development
10. Reading of names at the agency's monthly memorial service (please inform us if you do not want your name to be read)
11. Resolving grievances within YoloCares.
12. Complying with this Notice and with applicable laws

For example, your health information may be used to evaluate staff performance, be combined with other YoloCares patients in evaluating how to more effectively serve all YoloCares patients, be disclosed to YoloCares staff and contracted personnel for training purposes, used to contact you as a reminder regarding a visit to you, or used to contact you or your family as part of general fundraising and community information mailings (unless you tell us you do not want to be contacted).

- d. For Appointment Reminders.** We are permitted to provide you with appointment reminders via various means (e.g. email, telephone, answering machine message).
- e. For Fundraising Activities.** Certain information about you (e.g. name, address, phone number, dates you received care) may be used in order to contact you or your family to raise money for the agency. This information may also be disclosed to a related YoloCares foundation. If you or your families do not want to be contacted, notify YoloCares Privacy Officer at the address given below and request that your information be removed from our contact lists. Your request to remove your information from a specific fundraising campaign or from all fundraising campaigns, will not affect your treatment or the payment required of you. And you have the right to change your decision at any time and be added back to the contact lists.
- f. For Treatment Alternatives.** We may use and disclose your protected health information to manage and coordinate your healthcare and inform you of treatment alternatives that may be of interest to you. This may include telling you about treatments, services, products and/or other healthcare providers.
- g. For Business Associates.** There are some services provided in our organization through contracts with business associates. For example, we may use a copy service to make copies of your medical record. When we hire companies to perform these services, we may disclose your health information to these companies so that they can perform the job we've asked them to do. To protect your health information, however, we require the business associate to appropriately safeguard your protected health information.
- h. For Individuals Involved in Your Care or Payment for Your Care.** We may share your health information with a family member or other person identified by you or who is involved in your care or payment for your care. We may tell your family or friends your condition. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition and location. If you do not want health information about you released to those involved in your care, please notify YoloCares Privacy Officer at the address given below.

Following an individual's death, we may continue to disclose certain health information to family, friends, and others who were involved in the care or payment for care of the individual. Additionally, the use and disclosure of an individual's health information is only limited to a period of 50 years following their death.

A verbal consent by you is required for us to provide proof of immunization to schools where immunization is a requirement for enrollment of a student. However, we must document that consent.

Psychotherapy Notes are notes taken by a mental health professional about conversations during a private, group, joint, or family counseling session, which have been kept separate from the rest of your record.
